[RSVP Here](#)

The Berkshire Business & Professional Women organization provides professional and personal development and networking opportunities for working women from diverse fields with the mission to promote full participation, equity and economic self-sufficiency.

A woman alone has power; collectively we have impact. Traditionally women have been taught to be competitive with one another, because there was such a scarcity of jobs at the top. It's so clear that strategy doesn't work. The truth is that raising each other up and channeling the power of collaboration is truly how we'll change the equation—and have a lot more fun along the way.

We know there is power in relationships that extends beyond a generic introduction. When you create connections based on shared interests and goals, you'll be more successful at your job, because people want to work with people they know and like. This month we are taking advantage of the growth within our organization and are using the meeting to provide an opportunity for us to get to know each other. Essentially we are taking the "work" out of network

Whether you are an entrepreneur, small business owner or business professional, this event is the perfect opportunity to get away from your desk, have some cocktails and get to know other women who are living and working in the region in a fun and unique way.
